

Be Well Condition Management Drug List – 2024

Shaw offers Be Well Condition Management through Premise Health and the Shaw Family Health Centers. Condition management is designed to offer medical support, education and tools to help associates and covered dependents with diabetes, high blood pressure, high cholesterol, COPD and/or asthma to manage their condition and enjoy overall better health. By enrolling in Be Well Condition Management, participants may also be eligible to receive \$0 member cost incentives on the below medications through the prescription drug plan managed by Express Scripts. Incentive eligibility is based on the participant's compliance with all required criteria. The drug list includes the majority of medications covered by Be Well Condition Management but is not an all-inclusive list. Drugs on the list are reviewed and updated periodically to ensure they meet the criteria for condition management eligibility.
